Autonomic Disorders Workshop

CME for Pediatric & Adult Physicians and Allied Health Professionals

Purpose:

This workshop is designed to teach community physicians how to recognize autonomic disorders, how to initiate proper treatment, and when to refer to a tertiary care center. Collectively, autonomic disorders impact millions of Americans, but due to a lack of awareness, these patients often endure lengthy diagnostic delays and frequent misdiagnosis. This workshop will review postural orthostatic tachycardia syndrome (POTS), neurocardiogenic syncope, neurogenic orthostatic hypotension, autonomic failure and autonomic neuropathies secondary to autoimmune disease and diabetes. Physicians will learn to recognize the symptoms of autonomic disorders, the widespread effects they can cause throughout the body, and how to manage individual symptoms, as well as treating the patient in an integrated manner.

Target Audience:

Primary Care, Family Practitioners, Pediatricians, Neurologists, Internists, Cardiologists, Electrophysiologists, Nurse Practitioners, Physician Assistants, School Nurses and Allied Health Professionals

ACCME Accreditation:

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the Joint Providership of Professional Education Services Group and Dysautonomia International. Professional Education Services Group is accredited by the ACCME to provide continuing medical education for physicians.

AMA Credit Designation:

Professional Education Services Group designates this Live Activity for a maximum of 7 AMA Category 1 Credits™. Participants should only claim the credit commensurate with the extent of their participation in this activity.

Autonomic Disorders Workshop

Saturday, July 15th

8:30am - 8:35am

Welcome Remarks

8:35am - 9:30am

Overview of Autonomic Disorders

9:30am - 10:15am

Autonomic Failure & Orthostatic Hypotension

10:15am - 10:25am – Break

10:25am - 11:00am

Autonomic Testing I: Theory

11:00am - 11:30am

Patient Case Reports

11:30am - Noon

Questions & Answers

Noon - 1:00pm – Luncheon

1:00pm - 1:30pm

Autonomic Testing II: Live Demo

1:30pm - 2:15pm

Postural Orthostatic Tachycardia Syndrome:
Diagnosis & Management

2:15pm - 2:35pm

GI Dysmotility & Autoimmune Gastroparesis

2:35pm - 3:05pm

Pain Management in Dysautonomia

3:05pm - 3:15pm – Break

3:15pm - 4:00pm

Immune Dysfunction in Dysautonomia

4:00pm - 4:15pm

Ehlers-Danlos Syndrome & Dysautonomia

4:15pm - 4:30pm

Improving the POTS Patient Experience

4:30pm - 5:00pm Questions & Answers/Closing
