

Dress Down Day⁴ for Dysautonomia Research

to benefit

DYSAUTONOMIA INTERNATIONAL

AWARENESS

ADVOCACY

ADVANCEMENT

Contribute \$ _____ and wear casual clothes to work on _____, to show your support for Dysautonomia Awareness. All proceeds will be used to support dysautonomia medial research and education programs.

Dysautonomia is a term used to describe a malfunction of the Autonomic Nervous System. The Autonomic Nervous System controls essential functions of the body that we do not consciously think about such as heart rate, blood pressure, digestion, temperature regulation and more. When it is not functioning properly, this is known as dysautonomia. There are many different types of dysautonomia.

Depending on the type of dysautonomia they have, some people may be able to maintain fairly normal lives with medications and lifestyle adjustments, while some can be seriously disabled despite using all available treatments. Some types of dysautonomia are fatal. There is currently no cure for any type of dysautonomia, but with your help we can change that!

All proceeds of this event will be donated to Dysautonomia International, a 501(c)(3) non-profit organization dedicated to improving the lives of individuals living with dysautonomia by through medical research, education, advocacy and patient empowerment. For more information, please visit their website: www.DysautonomiaInternational.org.
